Road Supervisor

### LINE AGREEMENT

By this Agreement \_\_\_\_\_ is hereby granted permission to construct and operate an underground \_\_\_\_\_ (type of Line) on certain public road right-of-way described as follows:  
Please include map with specific locations marked.

**Said Line to be constructed in accordance with the following provisions:**

1. On all dirt and gravel roads, facilities shall be constructed approximately 10'0" to 12'0" from center of parallel roadway and buried 5'0" below the road surface. All Lines must be enclosed in conduit throughout R.O.W.
2. Lines following hard surfaced roads shall be constructed at the edge of R.O.W. a minimum of 5'0" below the surface and 5'0" below flowline of the ditch where feasible. Care should be taken when crossing driveways and entrances to remain 5'0" below normal grade of the location to minimize facility damage in case of future removal or rebuilding of entrances.
3. All county road intersections shall be bored and placed in conduit a minimum of 5'0" below the road surface and approximately 10'0" to 12'0" from center of parallel roadway unless crossroad structures are present.
4. All Lines within traveled structures, i.e., roads, ditches, culverts, &/or bridges, shall be bored at the edge of R.O.W. a minimum of 5'-0" below the flowline.
5. Line pedestals and signage will be located on the edge of County R.O.W. or off Republic County R.O.W. and maintained in good readable condition.
6. Owner shall ensure the Line will be maintained and kept in good repair.
7. Republic County shall be relieved of all liability of damage to the public by construction and operation of said Line.
8. Owner agrees that said utility will move or alter said Line at any time it is essential for road construction as determined by Republic County, with no cost to the County.
9. Republic County shall assume no responsibility for damage to the facilities by County construction or maintenance operations when one call procedures are followed.
10. Republic County Highway Administrator shall be advised in writing and furnished a map of the location when said Line is to be installed.
